

XT20

TRAINER

An all-new concept in total body fitness, the X Trainer delivers muscle activation superior to any other cardio product.

Since 1981, SportsArt has led the fitness industry with innovative design, creative engineering solutions, and world class manufacturing. The result is unique products with enhanced features that benefit all users.

TRAINER

SportsArtFITNESS

Rotational handles allow a variety of different training angles and movements while eliminating wrist stress

Fingertip control buttons allow quick and easy resistance changes to either, or both, the upper and lower body training components

Independent arm movement provides positive and negative resistance thereby maximizing training effect

Patented reclining seat back provides exceptional comfort and customized fit

Proprietary drive system delivers smooth and consistent resistance

Convenient step-through access is inviting, and non-threatening to users

XT20 TRAINER

State-of-the-art display features advanced programming, heart rate control, and CardioAdvisor™

Lower body resistance is independent of upper body, resulting in more effective training results
